

HORIZON'S FD85 FEATURES NEW TRAC-LINK CONTROL SYSTEM

The FD85 has 12" TRAC bow and stern thrusters including ABT-TRAC 370 active fin hydraulic stabilizers, STAR - Stabilization at Rest.

The FD85 has 12" TRAC bow and stern thrusters including ABT-TRAC 370 active fin hydraulic stabilizers for superior ride control. The TRAC-Link CAN Bus digital control system allows control of the proportional thrusters, stabilizers and hydraulic deck windlass from one or all of the ABT-TRAC touch screens. Another premium feature on the FD85 is STAR. Stabilization at Rest allows the the TRAC fins to maintain yacht stability while at anchor.

Contemporary style lines, creative interior spaces, tremendous interior volume, and flexible cruising speeds – these are the core features of the new Horizon FD85 fast displacement motoryacht. The FD85 is a truly advanced, mid-range motoryacht that incorporates cutting-edge design with functional living and entertaining spaces that are comparable to most 100+ yachts.
