

BAGLIETTO 42m

NEWCASTLE 125

NORTHERN MARINE 150

ABT·TRAC[®]

INTEGRATED HYDRAULIC SYSTEMS

TRAC Integrated Hydraulic Systems

- Designed to power TRAC thrusters, stabilizers, and ride control systems
- Supports third-party hydraulic equipment including: capstans, windlasses, cranes, generators, bilge pumps, other auxiliary devices

Quiet, Efficient Power Delivery

- Utilizes **high-efficiency, low-noise hydraulic piston pumps**
- Pumps driven by: main engines, generators, specialized PTO's

Flexible & Expandable Architecture

- Optional AC power packs provide hydraulic power at anchor
- Systems designed for future expansion
- Adding new hydraulic equipment is often as simple as installing an additional control valve

Built for Continuous Operation

- High-capacity cooling allows **continuous equipment operation**
- Integrated alarms warn of low oil levels and high hydraulic temperatures

Application-Specific System Design

- Each yacht is evaluated individually
- Hydraulic systems are **custom-configured** to match vessel requirements and operating profiles

Proven Worldwide Support

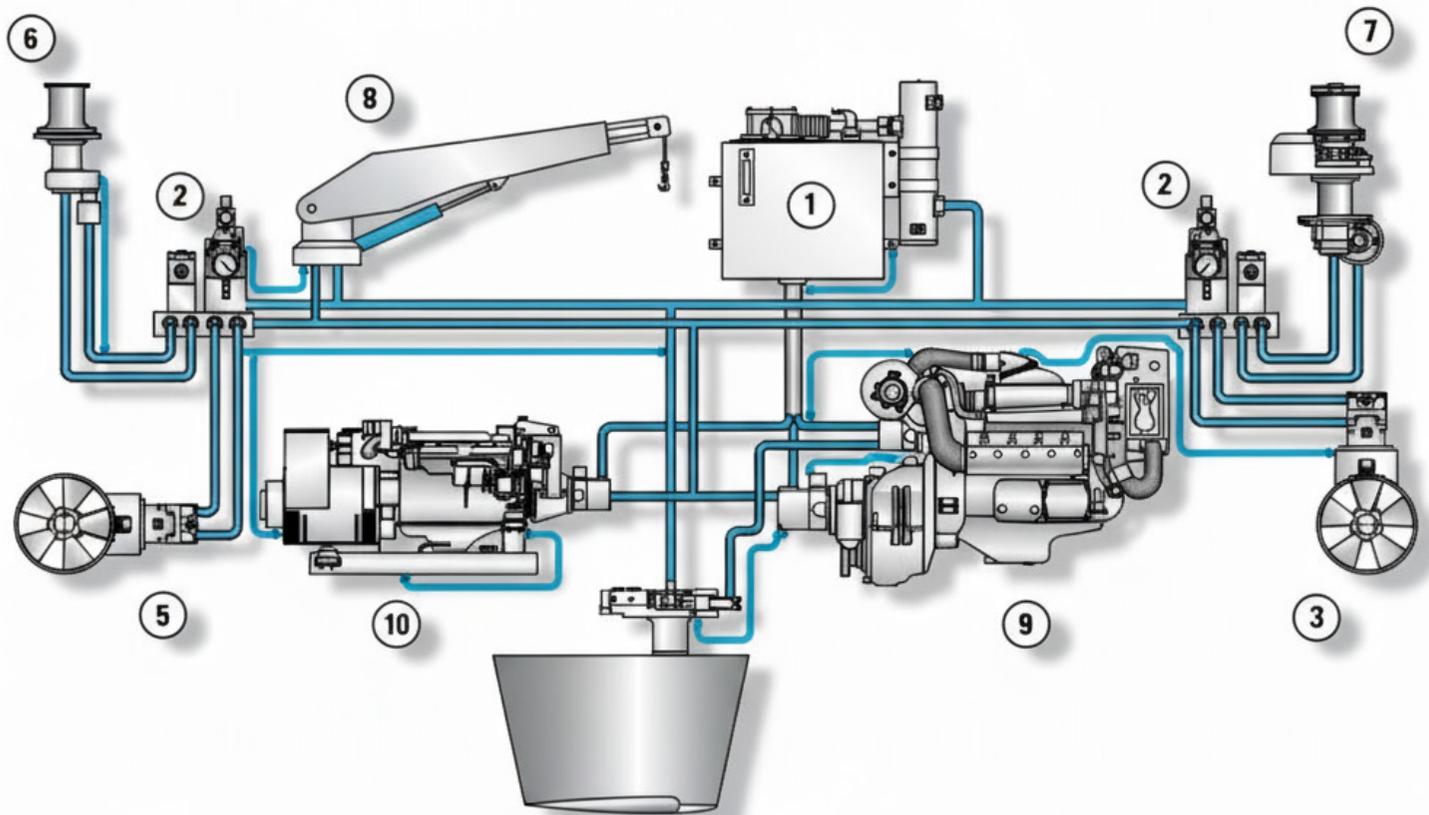

- Installed on thousands of vessels worldwide
- Expert support from factory technicians and a global service network

For exceptional performance, highest quality, and unmatched support, choose ABT·TRAC
